

Sustainable Art Camp Welcome Letter

School Aged- Session

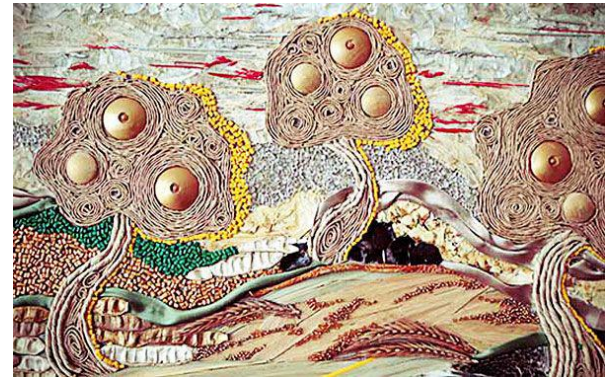

July 10-14, 2017

Welcome to Sustainable Art Camp! Your camp educator for this camp is Ms. Shannon. We are excited to share the concept of reusing and repurposing materials with the children. Our camp will take these concepts and utilize them through many artistic languages such as collaging,

painting, weaving, and sculpture. We will pull from plant and vegetable material to create natural dyes.

We will use the natural dyes for painting and dyeing textiles. Loose parts, natural materials, and naturally dyed textiles will be our resources for collaging, weaving, sculpting and

creating. These experiences will propose new ways of thinking about discarded materials and how to incorporate natural materials to construct beautiful works and expressions of art.

Reminders Checklist:

- Don't forget to apply bug spray and sunscreen before school.
- Please bring a lunch and a water bottle that is labeled each day.
- Extra changing clothes should also be labeled.

Looking forward to creating with the children!

Best,

Shannon
